

Psycho-Kinetics Possession of the Ball - Dynamic Game

15 Minutes

Objective

To develop possession of the ball using Psycho-Kinetics in a dynamic game.

Description

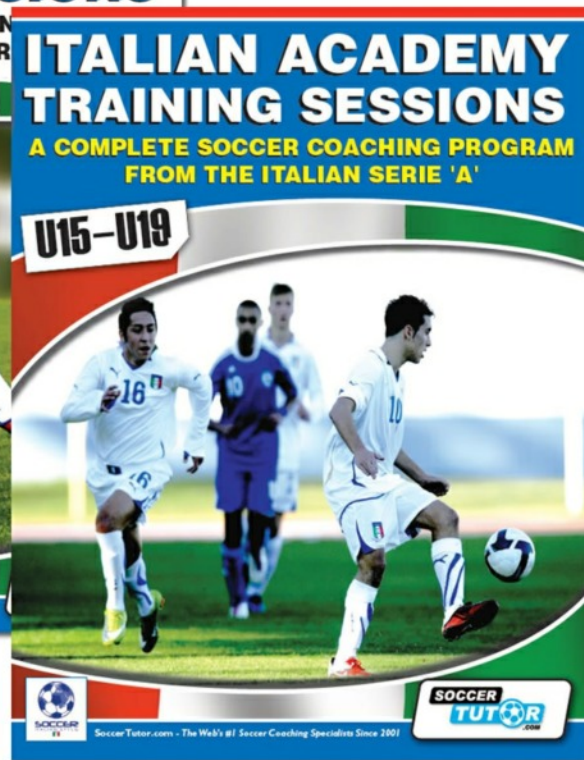

The team is divided into three colours inside a 30 x 30 yard area. This is a dynamic possession of the ball practice with a two colour team against a one colour team. If, for example, the Blue team loses possession, the game continues with the Red and Yellow trying to keep the ball with the blue trying to recover it.

As a coach you should try to enforce a conditional maximum of two touches only.

Coaching Points

1. Open body shape to see all of the playing options.
2. Play quickly (maximum of two touches) considering the overload of players.
3. If needed, create space to get away from the marker.
