## Practice 1: Building Up Play and Decision Making in a 5 v 4 Attack

### Objective

We work on building up play, decision making and attacking in the final third.

### Description

We have 3 defenders, 2 centre midfielders, 2 wingers and 1 forward (3-2-3 formation) playing against 4 defenders (blue) and a goalkeeper.

The ball starts with the defenders and one of them passes to a centre midfielder, who then dribbles forward and passes to one of the 3 attacking players. From that point we have a 5v4 attack in the highlighted area with the players free to make the decisions.

### Coaching Point

We want the players to make the right decisions to get in behind the defence and score a goal. The diagram just shows one potential attacking move/combination.
