### STEP 1 of 4

The group is split into three equal teams, in this case 3 v 3 v 3.

The Reds start with the ball in the middle of the pitch and attack one goal in this case the right hand goal defended by the Sky Blues.

The Reds try to score and the Blues try to tackle, intercept and win possession of the ball, the defending team does not have a GK.

If your squad contained two keepers you could permanently position them in the two goals.

## STEP 2 of 4

If the Red team score or the ball is intercepted then the Sky Blue team can quickly counter attack the team at the opposite end of the pitch, In this case the white team become defenders and the Blue team attackers.

If the Red team loose possession or score they immediately become passive and cannot make any further challenges for the ball.

The Red team jog back into a defending position in front of the goal they have just attacked and are purely in the way as nuisance value hindering the Sky Blue counterattack.

## STEP 3 of 4

The SkyBlue team now attempt to score in the left hand goal.

The Blue team loose possession and the white team gain possession once a goal is scored a shot is fired high or wide or a white player intercepts or tackles and cleanly wins the ball.
